

Guidelines For Application to Cross Facilities of WESTCOAST ENERGY INC. - BC PIPELINE & FIELD SERVICES ("WEI")

(For details on regulatory requirements for pipeline crossings, refer to Section 112(1) and (2) of the National Energy Board [NEB] Act and the NEB Pipeline Crossing Regulations.)

Procedure for Applicant

INITIAL CONTACT. Advise type of crossing, geographic location and scheduled date of construction by submitting the appropriate information or completed application documents (available for download from internet or by request).

Via Mail:

Westcoast Energy Inc.
PO Box 11162
Suite 1000, 1055 West Georgia Street
Vancouver, BC V6E 3R5

Attn: Crossing Administration

Via Fax: 604.691.5877

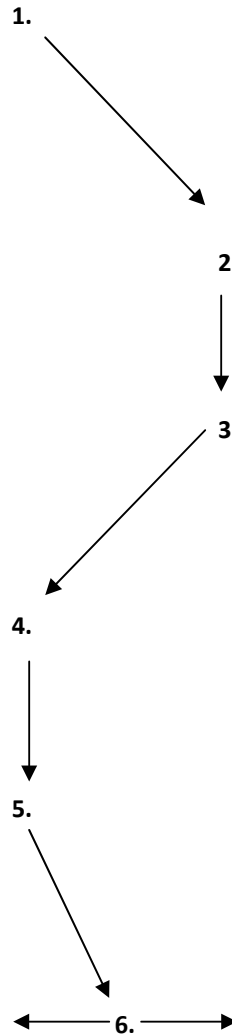

Via Email: Crossings@enbridge.com

AGREEMENT. Review, sign, and return one (1) complete copy of WEI's crossing letter agreement, with attachments. Sign and retain one (1) complete copy.

NOTIFICATION. Provide a minimum of three (3) working days notice to the WEI contact (information provided on letter agreement), and to BC One Call (in BC) or Alberta One Call (in Alberta) with details of location and start/end dates of activity.

CONSTRUCTION. Crossing to be constructed in accordance with the approved drawing(s), the terms and conditions of WEI's letter agreement, and the NEB Pipeline Crossing Regulations. It is the responsibility of the applicant to ensure WEI has located and marked its pipeline and any other of its underground facilities in the area prior to commencing work.

Sequence

Procedure for WEI

2. REVIEW APPLICATION. Determine facilities impacted by proposed work, and confirm that all information necessary to process has been received by the applicant.

3. TECHNICAL REVIEW AND APPROVAL. Crossing letter agreement (permit) is drafted by crossing administrator and reviewed by technical departments as necessary (lands, engineering, operations). If approved, send letter to applicant with Terms and Conditions.

PIPELINE LOCATE. Provide inspector contact information to applicant.
FIELD INSPECTION. WEI representative to be present to locate pipeline and observe installation/activity.
REPORT. Field inspection report to be completed and forwarded to WEI crossing administrator for data entry and filing.

NOTE:

If the applicant is denied permission to cross or considers the terms and conditions imposed by WEI to be inappropriate or unreasonable, the applicant may make application for leave to cross to the National Energy Board at:

National Energy Board
517 Tenth Avenue SW
Calgary, Alberta T2R 0A8

Phone: 403.292.4800
Fax: 403.292.5503
